Profile

Driven student leveraging studies in Computer Science seeking real-world experience as Web Developer. Offers strong interpersonal and task prioritization skills.

Projects

- Developed frontend of tour website (Natours), using HTML and CSS pre-processor Sass and added a much-needed responsive design for mobile users.
- Created a burger maker React app that calculates the price dynamically while the user makes his burger and added the checkout page to it.
- Made a classic **minesweeper** game with design of windows95 using **reactjs**.
- Created a simple JavaScript dice game.
- Created Splitter tip calculating website.
- Working on Crypton and personal portfolio website.
- Working on personal blog site using a Static Site Generator i.e. **Hugo**.
